

November 14, 2012

President Barack Obama
The White House
600 Pennsylvania Avenue NW
Washington, DC 20500

Dear President Obama,

We sign this petition to thank you for your recent designation of the 4,726-acre Chimney Rock National Monument in Southwest Colorado. We deeply appreciate the designation and your recognition of the spiritual, historic, geological and biological resources of the area.

With the recent designations of the Chimney Rock National Monument in Colorado, the César E. Chávez and Fort Ord National Monuments in California and Fort Monroe National Monument in Virginia, you have now invoked the Antiquities Act four times to confer national monument status on lands worthy of the designation and in need of special protection.

We are grateful for these designations and at the same time there are so many more special landscapes urgently in need of protection that only you can provide. Other Presidents have used the Antiquities Act to create a lasting conservation legacy that we can all be proud of. For example, President Bill Clinton employed the Act at least 21 times to designate national monuments, including the nearly two million-acre Grand Staircase Escalante-National Monument.

We encourage you to apply this presidential power both more regularly as well as more ambitiously to create vastly larger monuments in your second term. For example, there are opportunities and strong support for a designation of Canyon lands National Monument in UT, the El Rio Grande Del Norte National Monument and Otero Mesa National Monument in NM.

Mr. President, you can demonstrate your commitment to long-term conservation of our country's great natural wonders and ensure a conservation legacy for future generations of American's with far-reaching use of your Antiquities Act powers.

Sincerely,

The 1,565 undersigned citizens.
