Re: Coal Leasing Moratorium Notice of Intent to Prepare an Environmental Impact Statement DOI-BLM-HQ-3200-2023-001-EIS

Dear Bureau of Land Management:

WildEarth Guardians would like to share the attached petition signed by over 5,800 people from across the United States supporting the U.S. Department of the Interior, Bureau of Land Management's proposal to maintain the moratorium on new federal coal leasing. In addition to maintaining a moratorium on new federal coal leasing, the over 5,800 signatories to this petition expressly called on the U.S. Department of the Interior to:

- Cancel or otherwise prohibit new mining on all leases not currently producing coal.
- Reject new coal mining plans that would allow companies to mine existing leases.
- Establish and enforce expeditious dates for companies to fully clean up existing mines and restore the health of public lands.

We request this petition and the list of signatories be given full consideration in the development of the subject environmental impact statement and are incorporated into the administrative record for this process.

WildEarth Guardians has submitted numerous comments to the Department of the Interior and Bureau of Land Management regarding the moratorium on new federal coal leasing and proposed reforms to the federal coal program. We hereby incorporate by reference all prior submissions related to the moratorium on new federal coal leasing and proposed reforms to the federal coal program and urge the agency to fully consider these comments in the development of this new environmental impact statement. Thank you.

Sincerely,

Jeremy Nichols
Climate and Energy Program Director
WildEarth Guardians

June 15, 2023

Petition to:

President of the United States, Joe Biden
Secretary of the United States Department of the Interior, Deb Haaland

Re: Maintain the moratorium on new coal leasing, DOI-BLM-HQ-3200-2023-0001-EIS

Dear President Biden and Interior Secretary Haaland:

The undersigned support your efforts to confront the climate crisis and your commitment to putting the whole of the Biden administration behind action to reduce greenhouse gases and transition the United States away from fossil fuels.

To this end, we support your proposal to maintain a moratorium on new public lands coal leasing.

Over the years, the federal government has leased billions of tons of coal to private companies, enabling industry to lock the United States into an unsustainable and dangerous dependence on fossil fuels. While our nation is transitioning away from burning coal to relying on clean and more affordable energy, the coal mining industry continues to weigh down climate progress.

The moratorium on new coal leasing was first adopted by former President Obama's administration. We urge you to maintain the Obama administration's legacy of climate action.

Ending new public lands coal leasing is a critical step forward for comprehensive climate action. In addition to pausing new coal leasing, we urge you to also take the following steps to wind down and ultimately phase out coal mining on public lands:

- Cancel or otherwise prohibit new mining on all leases not currently producing coal.
- Reject new coal mining plans that would allow companies to mine existing leases.
- Establish and enforce expeditious dates for companies to fully clean up existing mines and restore the health of public lands.

For our climate and for our future, it's critical that you maintain a moratorium on new federal coal leasing. Thank you.

Sincerely,
