

Hello from Concerned Citizens of Mogollon,

We are contacting as many friends as possible to ask for support in our effort to spread the news of critical events occurring in the town of Mogollon. Summa Silver Corporation of Canada has been doing 'exploratory drilling,' searching for gold that might still be in the ground in the area of the old Fannie Mine. We strongly believe that this company is operating in a manner that could prove harmful to our fragile environment, especially to the Silver Creek watershed.

Summa Silver Corporation is hosting a **Town Meeting on June 29th at 9 am at The Purple Onion Cafe in Mogollon**, at which they will present their plans for further exploration/excavation in the area.

With the help of WILDEARTH GUARDIANS, a west-wide environmental advocacy organization, we are preparing for this meeting by compiling a list of specific questions. Our goal is to respectfully voice our concerns and demonstrate our opposition to this venture.

PLEASE forward this email to anyone who will support our efforts to keep the historic town of Mogollon safe from the toxic impacts of a for-profit extractive industry venture.

WITH MUCH APPRECIATION,

*Residents, neighbors and friends of Mogollon, New Mexico*
