

WILDEARTH GUARDIANS

After losing Endangered Species Act protections in the Northern Rockies, wolf packs have been decimated—including the storied wolves of Yellowstone National Park.

WildEarth Guardians know that the public can make a difference in this fight. This beer is an invitation to every lover of the wild: raise a glass, have the heart of a wolf, and take action at WildEarthGuardians.org.

WildEarth Guardians protects and restores the wildlife, wild places, wild rivers, and health of the American West. Join us.
